'Want to know more about' is a series of information sessions that cover topics that are important to you and your local community.

The sessions are free of charge and are presented in an engaging manner by friendly and knowledgeable facilitators.

This information session will be delivered by Katie Evans, from Money and Mental Health Policy Institute; Taira Kayani, from Better Leeds Communities; and Joe Kent, from Barca-Leeds

**Thursday, 21 June 2018**  
**12.30pm—2.00pm**

This seminar will offer an opportunity to learn more about the links between mental health problems and financial difficulties, to share the challenges of supporting people facing these difficulties, and consider best practice.

- Research with over 5,000 people with lived experience of mental health problems
- Research on how the NHS and Local Authorities can respond to this combination of problems
- Local good practice example, sharing successes of a debt advice and income maximisation project

*Please note that these sessions are aimed at professionals, to improve their awareness and practice around the subjects covered. They are not appropriate for members of the public.*
